Subject: Fluor Supplier and Contractor Registry - Your username and password

Importance: High

Francis,

Welcome to Fluor's Supplier and Contractor Registry. You have been successfully set-up in the system as a user. The information you will need to access the system is at the bottom this email.

When you first login to the system, you will be asked to change your password. Keep a copy of your username and password for your records as you will need this information to access the system in the future. If you have been added as a new user to an existing company you can skip over the following two paragraphs. Otherwise, if you are completing your company profile for the first time, follow the instructions below.

After changing your password, the system will take you to your home page. Please click on the "Supplier Details" tab to begin the registration process. Please make sure that you complete and save an entire page before exiting the system as partial information will not be retained.

Please use the Products and Services field under the commodities tab in the registration wizard to enter key search words to help Fluor users find your business. There are 1,000 characters allowed in this field to describe your offerings to Fluor. Remember this information will be used in search, so use terms that Fluor users might search for to find your business.

Regards,
Fluor's Registry Support Team
